## Held for Higher Prices.

PITTSBURG, March 25.—Although there is an excellent heating stage in the Ohio river, it was announced today that no more coal would be sent south until it is definitely known whether there will be a suspension of the mines April 1. The last shipment of a million bushels was made several days ago and tow boats are now returning to the harbor. The action of the coal companies will throw several hundred river men out of employment.

## Makes the Hair So Fluffy and Bright

"To give the hair that brilliance and softness so much admired and sought for by beauty seekers generally," writes Mrs. Mae Martyn in the Montreal Star, "it is very necessary to let soap shampoos, also shampoo powders, alone. Nothing will do more to destroy a beautiful head of hair than such shampoos."  
"To cleanse the hair and scalp perfectly, remove dandruff and dirt, and stop irritation and falling hair, nothing better can be used than a shampoo made by dissolving a teaspoonful of carmen in a cup of hot water. This makes the hair dry quickly and evenly without streaking and gives to the hair a beautiful luster and softness that lasts. It is the surest preventive of baldness ever discovered."

## No Fuss or Trouble To Shampoo This Way

(Clara de Vere on Hair Health.)

"The popularity of the dry shampoo is due not alone because of the absence of fuss and bother, but because of its simplicity and the delightful results always following its use. All that is required is to sprinkle a tablespoonful on the head, then brush it carefully through and out of the hair. This cleanses the scalp and restores it to healthy action, while the hair is left clean, bright and fluffy and easy to arrange."

"The best kind of dry shampoo can be made by mixing 4 ounces of therax with 4 ounces either of cornmeal or orris root. Keep in a sifter top can for convenience. Once you try a therax shampoo you will never have any other kind."
